

**REQUEST FOR QUALIFICATIONS  
DESIGN ENGINEERING AND CONSTRUCTION SERVICES FOR S. WEST SIDEWALK  
IMPROVEMENTS PROJECT  
QUESTIONS AND ANSWERS**

RFQ No. S19-025

Q&A #: 1

Date: September 24, 2019

Please note the clarification and/or additional information for the solicitation referenced above.

- 1. Q: Licensure – does the PE number suffice or is the certificate required?**

A: A copy of the certificate is preferred, but the PE number is acceptable.
- 2. Q: Can representative projects be completed projects for a multi-year bond project that is not yet complete?**

A: Yes.
- 3. Q: Is consultant required to be LGP 101 certified?**

A: No. Although it is encouraged so that the consultant is familiar with the requirements of TxDOT funded Local Government projects. The local government project manager will act as the RCIP.
- 4. Q: Has the scope been modified since the first release of the RFQ?**

A: No.
- 5. Q: Is the Advance Funding Agreement (AFA) in the council agenda packet, and if so, what is the date that it was approved by Council?**

A: The AFA was brought to Leander City Council on May 2, 2019.
- 6. Q: Is TxDOT review required on all submittals (60%, 90%, and 100%)?**

A: Yes. TxDOT's review shall be requested at all intervals of submission.
- 7. Q: Are the construction dates set by funding?**

A: No. Construction dates given in RFQ are an estimate.
- 8. Q: What are the Disadvantage Business Enterprise (DBE) requirements?**

A: TxDOT Civil Rights Division has assigned a race-conscious DBE goal of ZERO (0.00%) percent for this project proposal. Race-neutral DBE participation is encouraged and suggested.
- 9. Q: Is the CAMPO grant application available?**

A: City will post the grant application to the City Bids/RFQ page.

**10. Q: Can respondents use Civil 3D or is Microstation required?**

A: There is no requirement for use of Microstation by TxDOT.

**11. Q: Will a CZP be required?**

A: A CZP is required for any regulated activity proposed in the Edwards Aquifer contributing zone. Per TAC 30.1.213.B (6) (A) (ii) clearing, excavation, or other activities which alter or disturb the topographic or existing storm water runoff characteristics of a site are regulated activities, therefore a CZP will be required.
